<p>Organization: Mount Traber Bible Camp; Application Attached</p> <p>Reason for escalation: Impact related to Harassment & Discrimination</p> <p>During a domain search, NHQ flagged this organization due to their application for potential Youth workers. I reviewed the file and noticed the application that the organization has provided for the youth contains controversial church doctrine along with discriminating hiring practices based on church beliefs. The application also asks the Youth personal questions regarding their physical and mental health including medications and medical history.</p>
