Q6: How many blood tests were canceled or postponed due to the Alberta Government's COVID-19 mitigation efforts? Further broken down according to type.

Q8: How many blood tests took place on a monthly basis from January 2016 through December 2020? Further broken down according to type.

Notes:

This report contains **14 worksheets**, which includes information provided by multiple data sources in different clinical areas.

Related questions in this FOIP request were grouped and answered together (see the grouping above: **Q2 & Q5** - DI, **Q3** - acute care and ICU capacity and utilization, **Q4** - surgery, and **Q6 & Q8** - lab). Multiple worksheets are provided to answer questions that relate to a particular area, which includes note page, definition, figures and/or additional information.

The name of each worksheet follows the following **naming convention**:
"Question number_clinical area_page number_content description"

The **Q1 & Q7 - physician consultation** questions are answered separately by Alberta Health, which are not part of this report.

This information is provided for the purpose of this request and is current as of report date.
