Dear Minister Copping,

**Re: scientific evidence to justify prohibition on Ivermectin**

I write to inquire about your government's prohibition on Ivermectin as a treatment for Covid.

Specifically, what scientific research supports your position that people should not have a choice to take Ivermectin as prescribed by a medical doctor to treat a Covid infection?

We request that you provide us with copies of the medical and scientific papers, studies and reports on which your government's policy is based. Alternatively, we request that you email us links to these studies, by responding to [media@jccf.ca](mailto:media@jccf.ca).

We look forward to hearing from you.

Sincerely,

John Carpay, B.A., LL.B.  
President
