Hon. Audry Gordon
Minister of Health, Seniors and Active Living
Room 333 Legislative Bldg 450 Broadway
Winnipeg, MB, R3C 0V8

Dear Minister Gordon,

Re: scientific evidence to justify prohibition on Ivermectin

I write to inquire about your government's prohibition on Ivermectin as a treatment for Covid.

Specifically, what scientific research supports your position that people should not have a choice to take Ivermectin as prescribed by a medical doctor to treat a Covid infection?

We request that you provide us with copies of the medical and scientific papers, studies and reports on which your government's policy is based. Alternatively, we request that you email us links to these studies, by responding to media@jccf.ca.

We look forward to hearing from you.

Sincerely,

John Carpay, B.A., LL.B.
President
